

A Quantum Leap in Excellence – Education without Borders

Panel Session 2

Dr Peter Ryan

Teaching and Learning Innovations to Deliver Education Without Borders

International Centre
of Excellence in
**Tourism and Hospitality
Education (THE-ICE)**

Education without borders 1.0: international students to our classroom

Technology required:

Education without borders 2.0: our classroom to the world

Technology required:

Thinking points

- Can a student get the same level of experience from a virtual classroom when compared to face-to-face learning?
- Does the use of virtual environments homogenise and sanitise student experiences?
- How do we replicate the water-cooler effect?
- Do students want to travel, and can we blend both 1.0 and 2.0 together?
