and industry needs**

Associate Professor Melanie Williams

Associate Dean (Scholarship), William Angliss Institute, Australia

Associate Professor Melanie Williams is Associate Dean (Scholarship) at William Angliss Institute, where her primary role is to lead and support the Scholarship of Learning and Teaching across vocational and higher education. She also manages the Institute's curriculum and pedagogy innovation projects, including the introduction of collaborative challenge-based learning in vocational courses.

Melanie has worked in the vocational, adult community, and higher education sectors, in addition to providing private academic and professional development consulting services for universities and mixed-sector institutions. Her experience includes teaching, curriculum development and evaluation, learning resource development, professional development, project management and educational research. Melanie is also an experienced scenario planning facilitator, having provided these consulting services to a range of public and private organisations. Melanie's research interests include the Scholarship of Learning and Teaching, transformative learning, personal epistemology, innovation in vocational training, and scenario planning.
